Professional Profile

Frontend developer with over 4 years of experience creating efficient, accessible, and responsive web interfaces. I've worked in professional environments using HTML, CSS, JavaScript, and Git. Currently specializing in development with Shopify, Supabase, and Tailwind CSS, implementing modern solutions for real and scalable products. I'm passionate about optimization, clean design, and automating digital processes. I've also built APIs using Python and Flask, integrated into adaptable frontend interfaces.

Work Experience

- Assistant Frontend Manager – K Gumi SAS (2021 – 2024)
 - Developed and maintained websites using HTML and CSS.
 - Provided technical support for streaming tools (OBS) and multimedia editing.
 - Automated simple tasks to improve digital workflows.
 - Continuously enhanced user experience through interactive content.
- Frontend Developer – Wiptool (2020 – 2021)
 - Implemented new frontend features.
 - Used Git and GitHub for version control.
 - Optimized performance and responsiveness across mobile devices.

Education

Software Development Technician

Tecnológico de Antioquia

Completed up to 8th semester (not finished).

Highlighted Projects

 User Management Platform (Fullstack with Flask and custom frontend)

Web app built as a practical project to showcase fullstack skills. Includes a Flask backend with CRUD logic and a frontend using HTML and JavaScript.
